5-year warranty inspection of apartments in Brf Prisma Hyllie

Time to fix the warranty defects noted during the inspection

It is now time for NBI to fix the warranty defects noted in the inspector's notes for your apartment. The notes have previously been distributed to you in your mailbox.

Please note that if the inspector has noted U.A for all your rooms, you are not affected by this information. Only those who have a note E1: XX for a room in the notes will be visited by NBI.

What happens now?

NBI will not contact each member as previously informed. Instead, NBI has now given us a number of days for each stairwell (address) for when they will fix the warranty defects included in the inspector's notes. Unfortunately, NBI cannot be more precise than this.

If you cannot be at home in your apartment during these days, please put your door lock in **Service mode (marked with S on the locking ring)**, so that NBI can enter the apartment and do the work. If you do not know how to put the lock in service mode, then contact us and we will help you.

When will NBI visit you?
